

To Our Avail Outreach Family:

15 years ago, we embarked on a journey to provide the highest quality therapeutic care to your children and to create an environment where families and staff were valued, supported and treated like our own family. It has been the joy of our lives to bring that vision to life. We have gotten to know so many of you at such a deep level and being a part of your child's life, watching them blossom and grow, to see their joy, their tenacity and their spirit has been the greatest gift both personally and professionally.

Over the years here in Northern Virginia we have had the privilege to work with some of the most talented, dedicated, passionate, committed practitioners in the ABA field. It has been our honor to help these Clinicians and Therapists learn and grow and become extraordinary ambassadors for our Science and for the Field.

From the beginning we promised you and we promised our staff teams that we would never compromise our standards of care for providing the highest quality Applied Behavior Analysis therapy and to operating a practice where doing the right thing, for the right reason, the right way wasn't a mantra but a way of life. We are no longer able to provide the level of clinical support that we believe is necessary to continue to support our clients. We, therefore, made a difficult decision to close Avail Outreach and we will cease operations and therapy sessions on December 20th, 2024

Thank you for allowing us to be a part of your child's journey and know that we appreciate and value every minute we have spent with you and your kiddos, and we will do whatever we can to help support you during this transition. We wish you the very best in the future.

From the bottom of our hearts, Thank You!
